EBlock

Introducing LiveLanes™, The Industry's First Combined Auction Experience

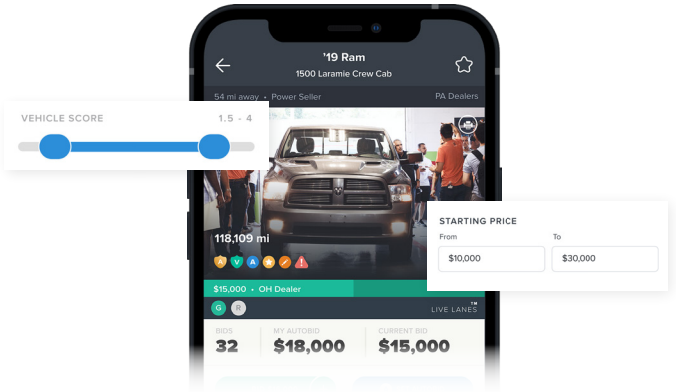

LiveLanes™ from EBlock, is the industry's first combined auction that seamlessly blends digital and physical inventory in a single auction experience.

With LiveLanes™, you'll have access to digital and physical auctions using a convenient, connected and consistent platform.

Convenient

Find more shoppers and inventory when and where you need it.

- Customized filters allow you to quickly find the right units.
- Modify notifications to never miss the best buys.
- Sell your wholesale units in digital lanes or physical auctions.

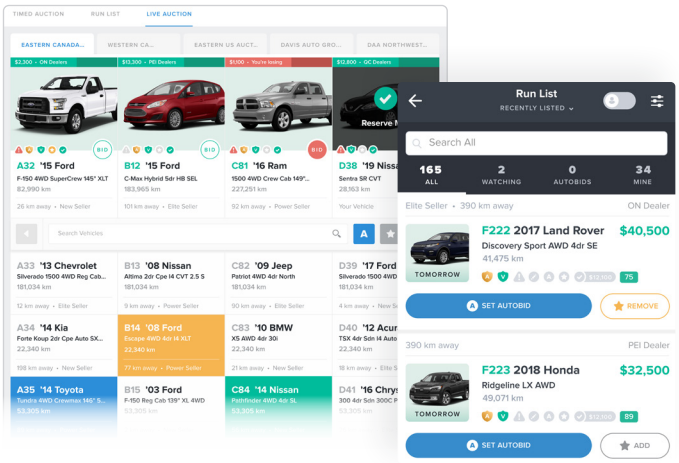

Connected

Combine land and technology to seamlessly buy and sell online or in lane.

- Communicate with auction staff about vehicles on the block.
- View live video for physical auction vehicles.
- Access run lists for vehicles at physical auctions.

Consistent

Experience the energy and urgency of a live auction with onsite and offsite vehicles running in a single auction experience.

- Generate a single run list to quickly bid on your sourced vehicles.
- Get real-time desirability insights with a detailed event timeline.
